Admira Guitars have solid wood tops made of cedar or spruce. They are well made with neat joints and high quality materials, finished to an excellent quality. Many of these models are European made instruments, manufactured in Spain.

We encourage students to play all instruments in your preferred budget. Although one brand may be perfect for one student, it is very likely that your child may select something different. When play testing it becomes very clear which is the best choice for each student. We only stock high quality brands so there is no “wrong” choice.

Our customers and teachers find that the best way to select instruments is to play test several to compare.
